## Complementing R&D Tax Credits with RD&I Grant Funding

There is a rich ecosystem in Ireland to support companies at every stage of their Innovation journey, whether it is an Innovation voucher if you are just starting out and want to test an idea with third level support (Value €5000) all the way up to a strategic collaborative disruptive technology project which can be funded up to a scale of €5-€7 million euro, there is an option to fit your needs. The most relevant supports for you will vary depending on a number of factors such as the size of your company or the type of research you are considering.

The Knowledge Transfer Ireland (KTI) RD&I funding tool [https://www.knowledgetransferireland.com/Research\\_in\\_Ireland/Find-RD-I-Funding/](https://www.knowledgetransferireland.com/Research_in_Ireland/Find-RD-I-Funding/) is a starting point to help you identify the right support.

This information in Figure 2 is a useful slide from the IRDG (Irish Research and Development Group) that summarises succinctly the different supports you can avail of in Ireland and Europe depending on your specific interest at a point in time.
